

BOLDOCEAN

THE NEXT GENERATION OF US FLAG SHIPPING HAS ARRIVED.

Bold Ocean, through its operating companies, is a truly United States Flag maritime company – meaning we are neither owned nor controlled by a foreign-based company. In the language of the maritime laws of the United States, we are a ‘citizen company.’ We take this status very seriously and are proud to fly the American flag on our ships.

A U.S. NATIONAL MARITIME STRATEGY HAS NEVER BEEN MORE IMPORTANT.

⚓ White House must RELEASE the NMS ⚓ GROW the U.S. Flag industry ⚓ SUSTAIN the U.S. Flag industry

U.S. FLAG INDUSTRY IS VITAL TO THE NATION'S ECONOMIC SECURITY, AND IT NEEDS:

More cargo

More vessels

More Mariners

PROUD TO BE A U.S. FLAG CARRIER

We are leaders in the global maritime industry.

- ⚓ Uncompromising environmental standards and stewardship
- ⚓ Highly skilled mariners with the best training in the world
- ⚓ Adherence to stringent regulatory oversight to ensure a safe fleet
- ⚓ The most reliable technology systems
- ⚓ Fairest labor-management relations in the industry

WE ARE BOLD OCEAN

- 👤 30 employees in Maryland
- 🌐 180 employees and affiliated partners worldwide
- 🚢 20 years in the shipping industry & a fleet of breakbulk vessels, heavy lift vessels, tankers and RoRos
- ☀️ Section 2 U.S. Citizen owned company & small business per NAICS regulations

SUSTAINING A POWERFUL U.S. FLAG FLEET

The Department of Defense relies in large part on US Flag vessels for virtually all of its sealift needs – in times of peace, crisis, and war.

To strengthen the declining US fleet, Congress must protect these critical programs:

- ⚓ **Maritime Security Program** increase stipend and add tanker program
- ⚓ **Cargo Preference Requirements** return to 75% for nondefense cargo and provide for MARAD enforcement
- ⚓ **Jones Act** oppose efforts to weaken it
